

Rahul Fake

Email: rahul.fake@example.com | GitHub: github.com/rahulverma-web

Professional Summary

Expert AI Engineer with 10 years experience building LLMs, scalable ML infrastructure, and self-driving cars.

Technical Skills

Languages: Python, C++, CUDA, Rust, Go

ML/DL: AWS, Kubernetes, PyTorch, TensorFlow, MLOps, OpenAI API

NLP: LLM Engineering, LangChain, RAG

Key Projects

Enterprise LLM Chatbot

Built a custom GPT-4 chatbot using LangChain and PyTorch. Deployed on AWS EKS.

Technologies: Python, PyTorch, AWS, Kubernetes, LangChain

Autonomous Driving Model

Trained a 50B parameter self-driving model from scratch using TensorFlow and CUDA.

Technologies: TensorFlow, CUDA, C++

Education

M.S. in AI, Fake University, 2018. CGPA: 9.9/10.
